

REMARKS

In a communication dated June 7, 2004, a restriction to one of the following patentably distinct species was required under 35 USC §121:

- | | |
|------------------------|------------------|
| A. Figures 1-16, 35-39 | E. Figures 26-31 |
| B. Figures 17-19 | F. Figures 32-34 |
| C. Figures 20-23 | G. Figures 35-38 |
| D. Figures 24-25 | H. Figure 39 |

The undersigned wishes to point out that Figs. 1-3 are denoted as "prior art".

Consequently, it is believed that Species A should include Figs. 4-16 and 35-39. Furthermore Species G and H are also designated for Figs. 35-38 and 39, respectfully. With these caveats, the Applicants elect to prosecute the patentably distinct Species A, represented by Figures 4-16 and 35-39, without traverse. It is believed that claims 72-133 read on Species A.

The Examiner is invited to contact the undersigned attorney by telephone if there are any questions about this Response or other issues that may be resolved in that fashion.

Respectfully submitted,

By: James B. Myers
